FOUR GENERATIONS OF THE BONZER® BRAND

Mitchell & Cooper's tale is one that dates back 138 years to 1879, when Mitchell & Cooper were Silversmiths and Engravers. However, sadly Mitchell passed away only one year after the company was established leaving Mr Cooper to continue the good work. The company continued as a Silversmiths and Engravers for a number of years until the war took hold during which it was forced to change its path. It evolved and transformed through many guises during the early days, evolving its product ranges with the times, including trench periscopes and aeroplane parts for the war. Then later in the 1920's establishing its very own brand Bonzer® and crafting its path into the catering and cocktail world.

hand at making cocktail equipment. And with the great successes of the first items off the production run, such as one of the original Hawthorne Strainers, Thimble Measures, Bar Spoons and Cocktail Shakers the brand was established and had made its mark on the industry.

A number of years on and with a heritage to be proud of we have revisited some of the classic tools. We have taken on board the very much appreciated comments from professionals along the way and evolved some of the designs & look and feel to give that classic Heritage quality and value. Not forgetting that ever important design that you just can't live without.

It was during the 1930's and with a history in silverware and design, that Bonzer® saw an opportunity to try their

FEATURES & BENEFITS

1. QUALITY & STYLE

The strainers form a cohesive range, balanced in its style and form, providing a solution complete for all the straining methods used in modern bartending.

The Bonzer® stamp offers assurance of quality and authenticity.

2. FOUR FINISHES

Made from 304 stainless steel, the tools have been designed to serve you for a lifetime. As well as the standard stainless steel finish, the range is available in silver, gold and copper plate for the added touch of luxury.

3. FUNCTIONALITY & ERGONOMICS

All of the strainers feature the curved handle which is aligned for optimum comfort of use. The handle fits perfectly in hand, whatever your preferred style of straining is.

The wrap around spring keeps the Heritage Hawthorne and Sprung Julep firmly in place, adding a sense of security and preventing the annoying bits of ice spilling past the side of the tin. Antique style of the spring with a thicker coil offers a more rigid fit.

4. BRANDING

Ample amount of prominent branding surface can provide the extra exposure for your brand. Uniformed design enables consistent placement of logos enhancing the brand presence.

5. THE COMPLETE SET

Four perfectly balanced heritage inspired strainers that fuse elegant style and functionality. These strainers will allow you to retain consistency and quality of your cocktail menu at all times.

6. PACKAGING

Available in retail packaging, as a set of four or single items.

DISTRESSED STEEL BARWARE

The distressed effect has been created to leave a well worked appearance on the Bonzer® tools. The collection has been designed to combine long lasting quality tools with a retro appearance to fit effortlessly into the bar.

CLASSIC

INDUSTRY'S FAVOURITE

The Classic Bonzer® Bar Strainers have been considered the industry standard for generations. Ever since the tools debut in the 1950's with their starring role on Concorde, Bonzer™ has been a staple in bars across the world.

CLASSIC RANGE COCKTAIL STRAINERS

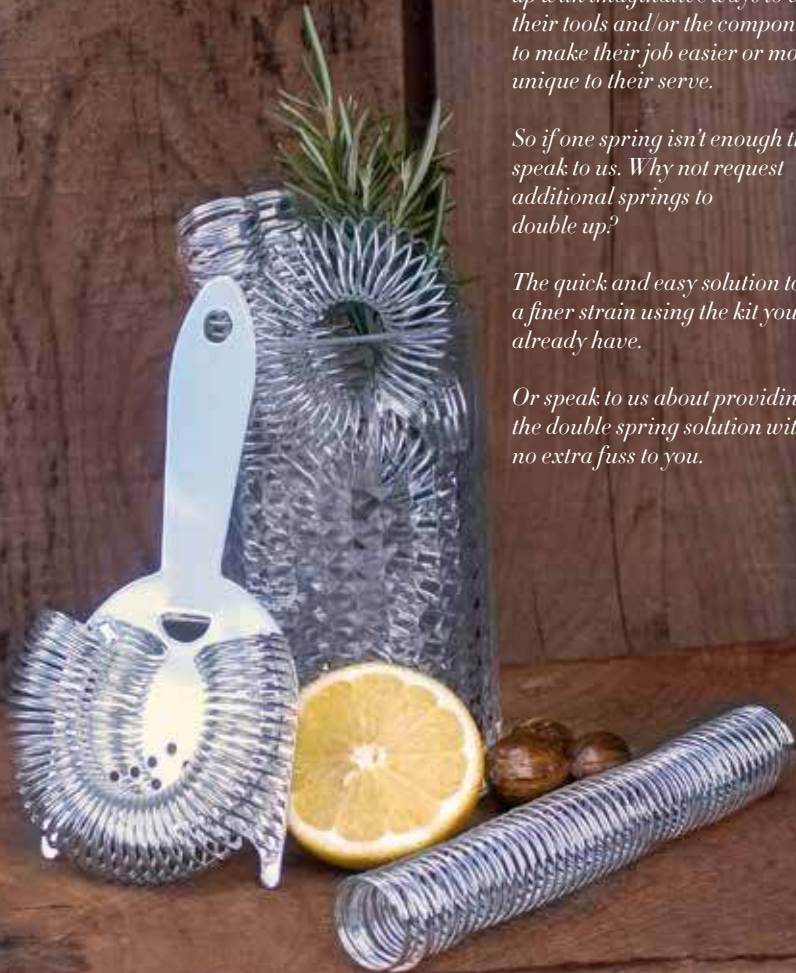

*Single or Double?
Wide or Fine strain?*

Many professionals often come up with imaginative ways to use their tools and/or the components to make their job easier or more unique to their serve.

So if one spring isn't enough then speak to us. Why not request additional springs to double up?

The quick and easy solution to a finer strain using the kit you already have.

Or speak to us about providing the double spring solution with no extra fuss to you.

THE CLASSIC STRAINERS RANGE - STAINLESS STEEL

Crafted from stainless steel, the tools lend themselves perfectly to everyday use. These robust strainers will become a staple in your bar. Their functional, stylish and reliable design is bound to make preparation of cocktails a breeze.

BONZER THIMBLE MEASURE

Constructed of the highest quality stainless steel to ensure they last and look premium in front of customers. 20% thicker than ordinary thimbles.

Accurate CE standard measurements.

BONZER JIGGER

All the same features as the standard Bonzer® Thimble but with dual capacities.

Accurate CE standard measurements.

BONZER WINE MEASURE

Bonzer® Wine Thimble measures come in small, medium and large. The 150ml measure is designed to measure out exact glasses of Champagne.

Accurate CE standard measurements.

ROTAMEASURE

Traditionally invented for the Whisky Trade. Encouraging bartenders to never spill a drop of the precious liquid and ensuring that the customer savours every last sip of their chosen drink.

The clever twist and tip motion of the rock n roll measure not only saves the precious liquid from going awry but acts as an easy serve option for the less steady of hands.

The quality manufacture of the Bonzer® product ensures perfect balance and is available in standard 25ml, 35ml, 35.5 ml and 50ml stainless steel options. All CE stamped except 50ml.

Branding and bespoke designs are available upon request along with alternative finishes.
