Disposable gloves

Using guide

Purpose

- ✧ To protect the patient and the professional.
- ✧ To prevent microbes getting attached to hands and spread of infection via hands.
- ✧ To protect the hands from occupational accidents, cleansing agents, chemicals, stick injuries

Choice of glove

Vinyl

- ✧ When glove is not subjected to hard mechanical stress
- ✧ Short term general use

Nitrile

- ✧ When good protection against microbes is needed.
- ✧ Persons suffering from latex allergy
- ✧ Casting (glass fibre)
- ✧ Handling of cytostatics, chemicals.

Natural rubber latex

- ✧ When good protection against microbes is needed.
- ✧ When the glove is subjected to strong mechanical stress.
- ✧ When sharp objects are handled.
- ✧ Long term use.

Use of gloves

- ✧ Protective gloves are always single-use
- ✧ They are used per procedure and per patient
- ✧ Depending on the situation either sterile or factory clean gloves are used
- ✧ Disposable gloves are neither washed nor disinfected

Vinyl gloves

Product Introduction

This glove is made from PVC paste resin, which has the characteristics of soft, uniform thickness, non-toxic, odorless, non-allergic reactions and other excellent characteristics. Our product has good protection and is mainly used in medical, industry, food processing and other field.

Technical parameters

Material	Vinyl
Type	Powdered/Powder-free, non-sterile
Weight	M=4.0g/M=4.5g/M=5.0g/M=5.5g
Size	XS,S,M,L,XL
Length	240mm
Color	clear white/blue
Model	Ambidextrous, with rolled rim
Lifetime	Min 5years
Storage	protect from heat, humidity, strong light and ozone

Powdered

Item code	Color	box(pcs)	Carton(pcs)
